Good thing about purchasing an item on an authorized retailer is that we stand behind our products. If in case you will encounter problems with the item, you can definitely contact us and we will be more than happy to help and assist you further. <:)> Please check first with the place of purchase for their assistance. If they do not honor the item, you may contact our Corporate team at#### between 7 am-4 pm PT Monday-Friday) or visit this link to file a claim: https://help-us.nikeinc.com/app/claims/return-guidelines/ Hello, I bought a new Romaleo 4 product from StockX. The Swoosh part is a little peeled off, but StockX said it could be a problem during the manufacturing process and it was impossible to handle. is not it really a bad product? 27	<p>continue where you left off. I hear you and totally understand how frustrating it can be. These shoes generated a ton of traffic there were more people ready at 9am PST than shoes available That is just the nature of the sneaker game! Even if you do everything right, you still have to be very lucky to get your hands on them. That is what makes the Ws feel so good though! Keep your head up, I am rooting for you on the next drop you love! We take feedback and opinions into serious consideration. That is the only way we get better. I am going to make sure this gets passed along to the appropriate teams to make sure we can improve this experience going forward. I understand what you are feeling right now. I myself is a consumer and is also trying my luck whenever there is a new release. We have systems put in place to filter out unverified accounts and orders to make the launch process as smooth and as fair as possible. This is such a unique landscape as it is always changing and because of that, people are always on the lookout for ways to get around. As a result, we are constantly on the counter-offensive since we want passionate people like yourself to actually wear the product. I am a Nike member for a long time now. You might want to try these tips for higher chance of scoring a pair: How do I get an ExAx? Be sure to stay active by liking, commenting, sharing products you like on all our apps, and order your favorite products for the best chance at getting Exclusive Access in the future! Here are a few tips I recommend doing before any big launch you are going for: 1) Uninstall and reinstall your Nike app 1-2 days before 2) Go to internet settings, clear your cache and cookies 1-2 days before 3) Have the SNKRS website up along with the app. If the app is lagging, checkout via the site These will not guarantee a win, but they will definitely help improve your chances. Try these on the next one and let me know how it goes! Definitely, your feedback does not go unnoticed this will be shared to our team While you have me here, will there be anything else that I can check for you? I respect your opinion I am still rooting for you on our future drops Thanks for chatting with Nike and have a great day! Stay safe! Customer service is awful My last chat..... Johan Hi!
